We Energies  
Foundation

presents:

# *Doug Tallamy*

Listen and watch as Doug Tallamy presents two talks, both eligible for Continuing Education Units:

## **Creating Living Landscapes**

Doug dispels common misconceptions about natives and teaches us ways to make our properties a showpiece without losing its ecological function in the local ecosystem.

## **Treasures Among Our Natives**

Learn fascinating ways that animals interact with native plants and some of the most productive plants to nurture animals.

## **About the Forum**

The Southeast Wisconsin Invasive Species Consortium, Inc. (SEWISC) and Johnson's Nursery, Inc.™ are pleased to present a ground-breaking day of educational sessions that bring together Green Industry Professionals (nurseries, landscape architects, arborists, contractors) and Land Management Professionals (restorationists, natural area managers, environmental educators, conservationists).
